

Contents - Vol. 23 (2009), Fasc. 1-2

<i>Takashi Noiri, Ahmad Al-Omari and Mohd. Salmi Md. Noorani</i> Weakly b -Open Functions	1
<i>Shaban Sedghi, Nabi Shobe and Abdelkrim Aliouche</i> A Fixed Point Theorem in Fuzzy Metric Spaces via an Implicit Relation	15
<i>K. K. Dewan and Sunil Hans</i> On Extremal Properties for the Derivative of Polynomials Abhijit Banerjee	27
<i>Abhijit Banerjee</i> Uniqueness of Meromorphic Functions Sharing Three Sets	37
<i>Takashi Noiri and Valeriu Popa</i> A Unified Theory of Upper and Lower Almost Nearly Continuous Multifunctions	51
<i>Nilgün Sönmez</i> The Internal Bisector's Slope and External Bisector's Slope on Poincaré Upper Half Plane	73
<i>S. Sagioglu and A. Kanibir</i> co - γ -Compact Generalized Topologies and c -Generalized Continuous Functions	85
<i>R. K. Raina and J. K. Prajapat</i> On a Certain New Subclass of Multivalently Analytic Functions	97

F. F. Gonçalves and M. R. Grossinho

Numerical Approximation of Multidimensional

Parabolic Partial Differential Equations

Arising in Financial Mathematics 111

Snezhana G. Hristova and Ivan K. Russinov

φ_0 -Integral Stability in Terms of

Two Measures for Differential Equations 133

Aissa Djeriou and Madani Moussai

A Counterexample for Boundedness of Some

Pseudo-Differential Operators on Pointwise

Multipliers Triebel-Lizorkin Space 145
